Tasks

Lesson 1

Ask your students what they think of when they hear the word *technology*. Ask them when they think technology began. Their answers are likely to centre on modern technology, especially computer-related technology. materials, and sources of power, that makes people's work easier." .The history of technology really begins in prehistoric times.

Lesson 2

How have electric cars contributed to climate change? Life now is much simplified due to the advanced network connecting us around the world through social media as well as many sites in the web browser(another advanced method of technology)

Children are to make their own resource here using positive technologies. PowerPoint presentation. A speech or talk over positive impact of technology from their point of view.

Essential questions

Q1. How did technology help you?

Q2How has technology evolved over time

Text book. Some information from the internet. Notes posted in the GC
