

مدرسة القديسة مريم الكاثوليكية الثانوية - دبي  
ST. MARY'S CATHOLIC HIGH SCHOOL, DUBAI

Theory

YEAR 10 – Computer Science (Week 3) 2021-2022

<b>Subject</b>	<b>Computer Science</b>
<b>Class/ Section</b>	<b>Year 10 A-F</b>
<b>Week</b>	<b>12<sup>th</sup> September to 16<sup>th</sup> September</b>
<b>Work send to students by</b>	<b>Google classroom</b>
<b>Total number of lessons per week</b>	<b>2</b>
<b>Unit/Topic</b>	<b>Unit 4: Computers Chapter 17 : Hardware</b>
<b>Key Vocabulary</b>	core, multicore processor, dual-core processor, single-core processor, cache, static RAM
<b>Lessons 1,2–Live Zoom &amp; GC lessons along with face to face instruction for students present on a particular day</b> <b>Work will be assigned in Google classroom which will be matched to the students' ability.</b>	<b><u>Specific Learning objectives</u></b> <ul style="list-style-type: none"><li>❖ Understand and describe the factors that affect the performance of the CPU.</li><li>❖ Understand the need for embedded systems.</li></ul> <b><u>Specific Intended Learning Outcomes</u></b> <p>Students will be able to</p> <ul style="list-style-type: none"><li>❖ understand and interpret the factors that affect the performance of the CPU (Clock speed, number of processor cores, size of cache, types of cache)</li><li>❖ understand the need for embedded systems and describe their functions</li></ul>
<b>Tasks</b>	Students will complete the Activity questions 1, 2 and 3 on embedded systems and factors that affect the performance of the CPU.

**Assessment Criteria/  
Essential questions**

- Explain the role of embedded systems in real life applications.
- Describe the three factors that affect the performance of the processor.

Assessment objectives expected by the board with respect to the above question is listed below.

AO1: Demonstrate knowledge and understanding of factors that affect the performance of the processor.

AO2: Apply knowledge and understanding of key concepts of embedded systems and their functions.

**Resources**

Pearson Edexcel International GCSE(9-1) Computer Science Book  
PowerPoint presentation

## Practical

### YEAR 10 – Computer Science (Week 3) 2021-2022

<b>Subject</b>	<b>Computer Science</b>
<b>Class/ Section</b>	<b>Year 10 A-F</b>
<b>Week</b>	<b>12<sup>th</sup> September to 16<sup>th</sup> September</b>
<b>Work send to students by</b>	<b>Google classroom</b>
<b>Total number of lessons per week</b>	<b>2</b>
<b>Unit/Topic</b>	<b>Unit 2 : Programming Chapter 8 : Data structures</b>
<b>Key vocabulary</b>	array, index, record, field
<b>Lessons 1,2–Live Zoom lesson along with face to face instruction for students present on a particular day</b>  <b>Work will be assigned in Google classroom which will be matched to the students’ ability.</b>	<b><u>Specific Learning objectives</u></b> <ul style="list-style-type: none"><li>❖ Understand the need for, and understand how to use two-dimensional array.</li><li>❖ Construct and use two-dimensional lists in Python programming language.</li></ul> <b><u>Specific Intended Learning Outcomes</u></b>  Students will be able to <ul style="list-style-type: none"><li>❖ Describe the structure of two-dimensional array and give examples of their use.</li><li>❖ Create and use two–dimensional lists in Python programming language.</li></ul>
<b>Tasks</b>	Activities 1, 2 & 3 on two-dimensional list will be posted in Google classroom. To encourage collaborative learning environment, students will be grouped in break out rooms to discuss and solve the questions.

**Assessment Criteria/  
Essential questions**

Develop a program for a simple address book that uses a two-dimensional list to store a set of names and email addresses and allows the user to search for a person by name and returns their email address.

Assessment objectives expected by the board with respect to the above question is listed below.

AO1: Analyse problems in computational terms to make reasoned judgements.

AO2: Analyse problems in computational terms to design, program, test, evaluate and refine solutions.

**Resources**

Pearson Edexcel International GCSE(9-1) Computer Science Book  
PowerPoint presentation.
