Score Plus Education

# Student Admission

April 11<sup>th</sup>

“The Webinar was very useful as representatives from multiple universities described the impact of the Coronavirus on College Admissions and Standardized Tests.”

-Dave Menezes (Year 12)

*In these unprecedented times, we students can agree that support from others is invaluable. Webinars have been an extremely useful way for us to connect to professionals and other individuals who can help us learn more about a wide range of topics. Be it for advice in career paths, academics, learning new skills, virtual university campus tours/discussions with faculty, or even simply to help us deal with the current crisis, the different webinars we have attended have certainly been of great help to all of us as we look to the future with eagerness and optimism for what lies ahead.*
