To : Parents from students in Years Five, Six, Seven and Eight - **Financial Literacy Programme**
Dear Parents,

Greetings from St. Mary's. We are introducing an exciting opportunity for students conducted by Kids Finance Initiative in years Five through Eight and we invite you to read on.

At Kids Finance Initiative, we believe that teaching kids about how to handle money smart and responsibly can significantly impact their lives.

This is a critical life skill and will give kids what we like to call an # unfair advantage, because they are equipped to be independent and armed with the necessary financial skills for success. Here students will learn how to develop the right mind set and attitudes toward money. But we also teach them that money is just a means to an end....so they must have clear goals and plans.

They will learn about the importance of saving, how to make wise spending decisions, how to budget, what is credit & debt and how to use both. They will learn the about the different forms for payment, the difference between a credit & a debit card. They will also learn how to read a credit card statement.

You can see what parents & kids have to say about the course at <http://kidsfinanceinitiative.com/kids-testimonials/>

You can also see videos on the program at <http://kidsfinanceinitiative.com/gallery/>
