

## YEAR 6 – COMPUTING

<b>Subject</b>	<b>Computing</b>
<b>Class/ Division</b>	<b>Year 6 A-F</b>
<b>Week</b>	<b>4 (20<sup>th</sup> Sep to 24<sup>th</sup> Sep)</b>
<b>Work send to students via</b>	<b>Google Classroom/ Zoom</b>
<b>Total number of lessons per week</b>	<b>2</b>
<b>Lesson 1</b>	<b>Chapter 1- Algorithm- Identifying and Debugging Errors– via Zoom</b>  <b>Learning objectives:</b> - To be able to identify errors in algorithms. - To be able to debug errors in algorithms.
<b>Lesson 2</b>	<b>Chapter 1- Algorithm- Identifying and Debugging Errors– via GC</b>  <b>Learning objectives:</b> 1. To be able to find the errors in the given algorithm and rewrite it 2. To be able to find the output of a given algorithm.
<b>Resources</b>	Activity sheet sent via Google Classroom.
