

YEAR 13 - BUSINESS

WEEK 9 (25th to 28th October, 2020)

Blended/ Distance Learning

Sunday, 25th October:

Theme 3- Business Decisions and Strategy

Chapter 53 Investment Appraisal

Learning Objective:

- To understand the meaning of Accounting Rate of Return.
- To describe how ARR is a better way to evaluate an investment project compared to PBP.
- To calculate ARR when capital outlay and expected net cash flows of investment projects are available..

Lesson Outcome:

- Students will be able to measure the net return per annum as a percentage of initial spending.
- To ascertain if a particular investment is worthwhile using ARR.
- To compare different projects and select the most favourable based on ARR.
- To narrate the pros and cons of this method.
