About Tech Bootcamp

What is Tech Bootcamp?

Tech Bootcamp is a live online coding foundation workshop for young minds. It is divided into two sessions of 60 minutes full of fun and interaction with an experienced STEM Educator. Sessions will cover the fundamentals of coding using Scratch and Thunkable.
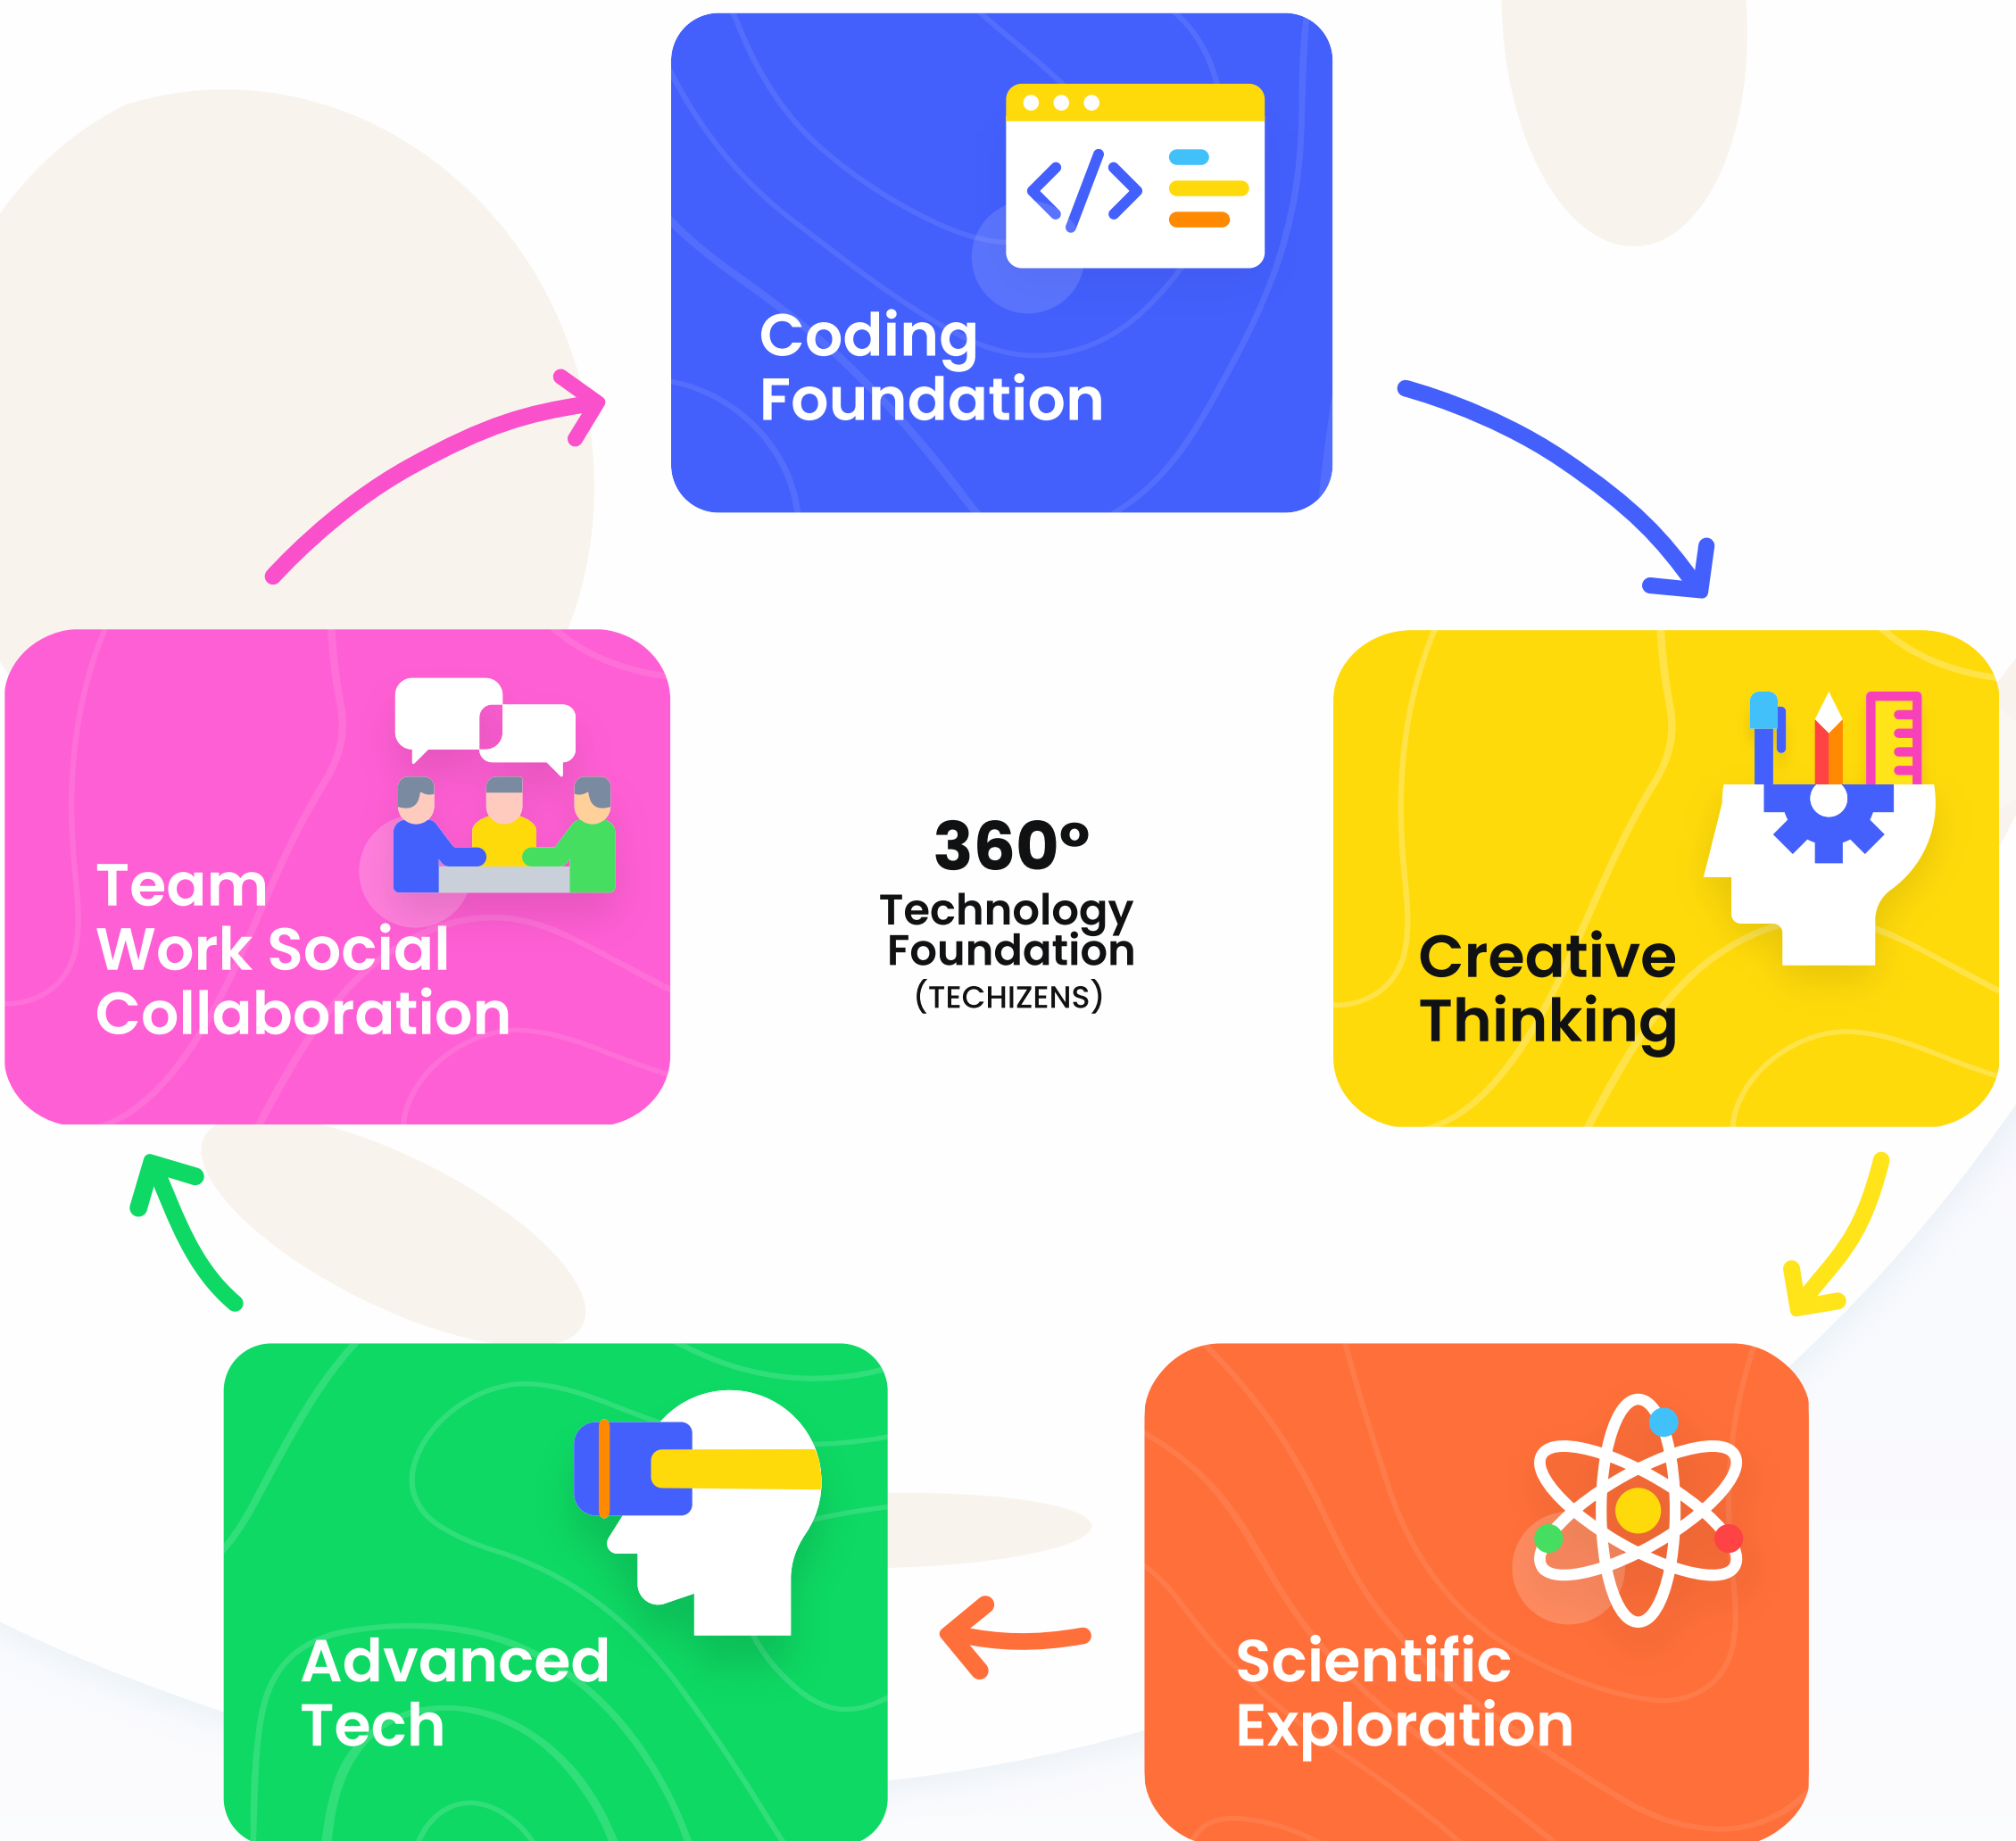

Why attend Tech Bootcamp?

Starting young puts them much ahead of others in a new league of future innovators, scientists, technology leaders and entrepreneurs. They develop various traits like, design thinking, complex problem solving, cognitive flexibility, critical thinking, decision making and coordination with others.

What's in store for Participants?

1. Participation Certificate for all registered candidates

2. Workshop conducted on fundamentals of coding and game development

3. Chance to win goodies, gift vouchers and much more.

4. Fun interactive session with experienced STEM professionals.

5. Know your career opportunities ahead.

The 5 Pillars Of Our Curriculum

The curriculum is designed to bring out the genius in your child. We offer an all-encompassing technology curriculum for kids, covering coding foundation to scientific exploration, and design thinking to robotics. It is also the only platform to provide specific teaching expertise for different faculties of technology.

"

Everybody should learn to program a Computer because it teaches you how to think

Steve Jobs

"

Learning to write programs stretches your mind, and helps you think better, creates a way of thinking about things that I think is helpful in all domains
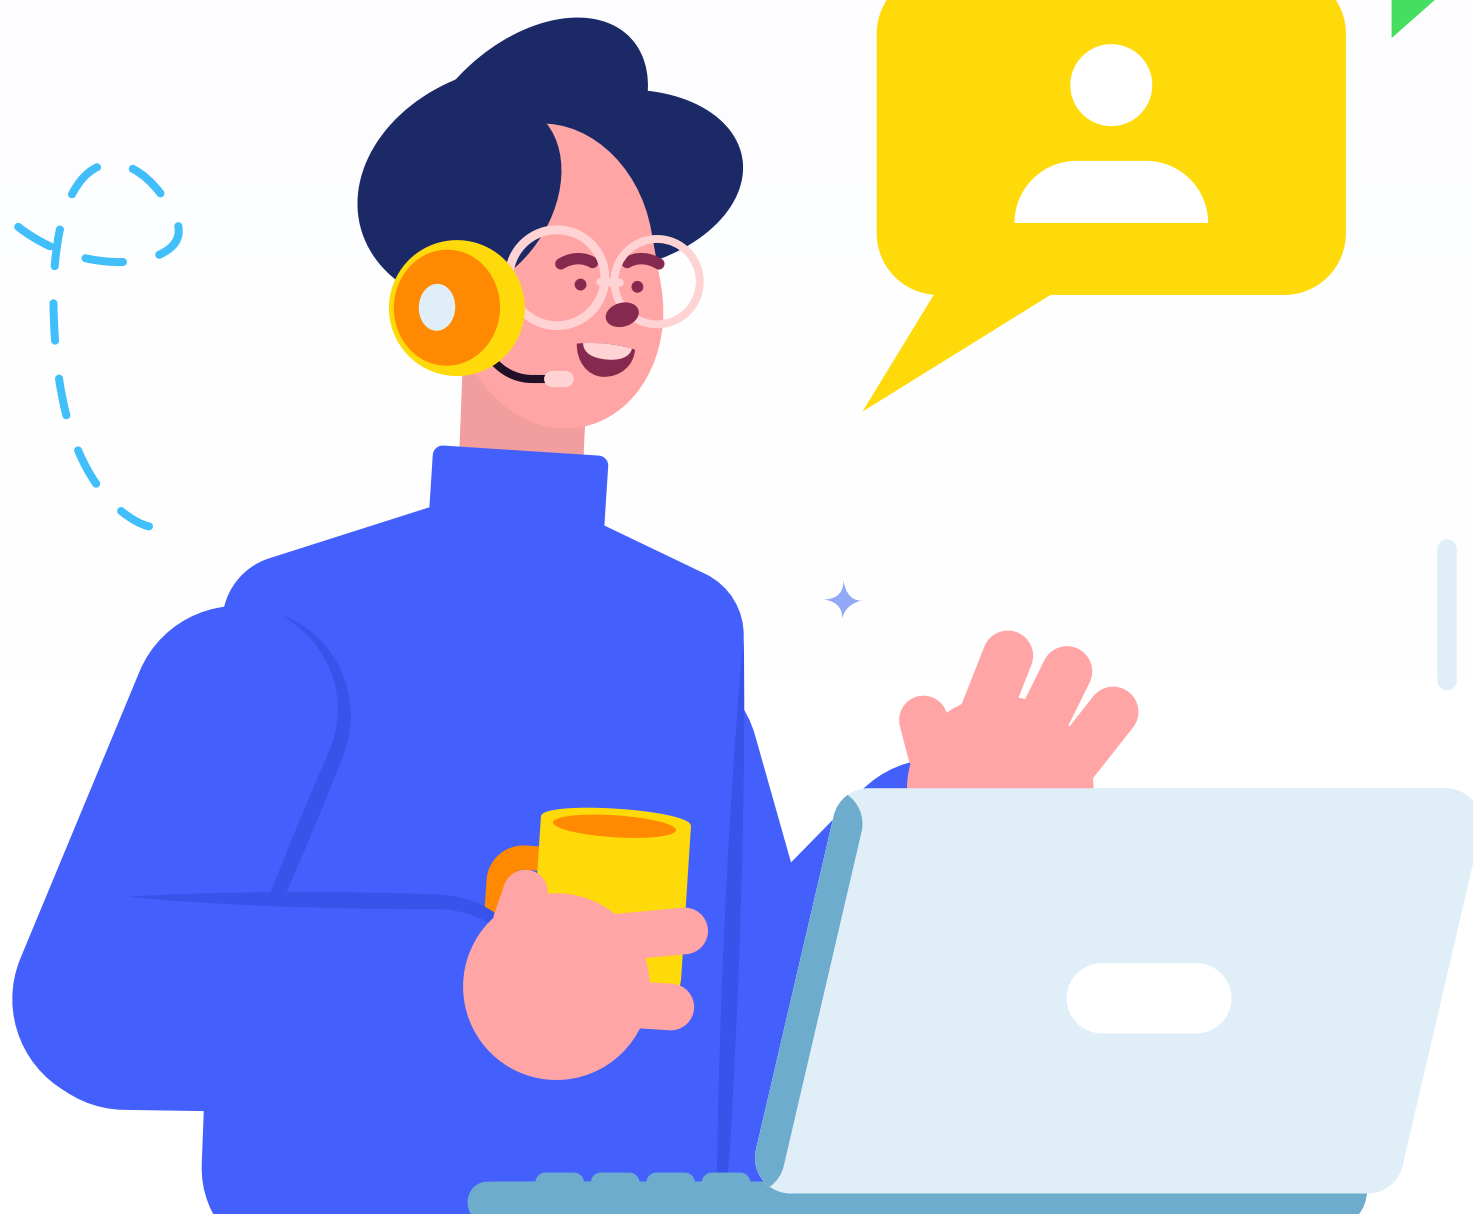

Bill Gates
