YEAR 7 – MATHEMATICS NOV 2020

Subject	Mathematics
Class/ Section	Year 7 A-F
Week 13	22th November to 26th November
Work send to students by	Google classroom / Zoom
Total number of lessons per week	5
Unit 5	Unit 5 - Angles and Parallel Lines
Lessons 1 Zoom lesson Work will be discussed in the Zoom lesson Task Resources	**Learning Objective:** • To work with mixed fractions for all four operations • To write the time as a mixed number. **Intended Learning Outcome:** By the end of the lesson students will be able to • To work with mixed fractions for all four operations • To write the time as a mixed number. **PPT and Textbook questions**
Lesson 2 Asynchronous Lesson Work will be assigned in the Asynchronous lesson Task & Resources	**Learning Objective:** • To work with mixed fractions for all four operations • To write the time as a mixed number. **Intended Learning Outcome:** By the end of the lesson students will be able to • To work with mixed fractions for all four operations • To write the time as a mixed number. **Work to be assigned from the PPT through GC.**
Lessons 3 Zoom lesson Work will be assigned in the Zoom lesson through GC Task & Resources	**Learning Objective:** • To work out unknown angles when two or more lines meet or cross at a point • To work out unknown involving parallel lines **Intended Learning Outcome:** By the end of the lesson students will be able to • To work out unknown angles when two or more lines meet or cross at a point • To work out unknown involving parallel lines

	PPT and Textbook questions
Lessons 4 **Zoom lesson** **Work to be discussed and done in the Zoom lesson** **Task & Resources**	**Learning Objective:** • **To work out unknown angles when two or more lines meet or cross at a point** • **To work out unknown involving parallel lines** **Intended Learning Outcome:** **By the end of the lesson students will be able to** • **To work out unknown angles when two or more lines meet or cross at a point** • **To work out unknown involving parallel lines** **Work to be assigned from the Worksheet through GC.**
Lessons 5 **Google classroom** **Work will be assigned in the GC according to the students ability.** **Task & Resources**	**Learning Objective:** • **To use the properties of a triangle to work out unknown angles** • **To use the Properties of Isosceles and equilateral triangles to solve problems.** **Intended Learning Outcome:** **By the end of the lesson students will be able to** • **To use the properties of a triangle to work out unknown angles** • **To use the Properties of Isosceles and equilateral triangles to solve problems.** **PPT**
