

YEAR 7 – MATHEMATICS FEBRUARY 2021

Subject	Mathematics
Class/ Section	Year 7 A-F
Week 20	21th February to 25th February
Work send to students by	Google classroom / Zoom
Total number of lessons per week	5
Unit 10	Unit 1 - Analysing and Displaying data
Lessons 1 Zoom lesson Work will be discussed in the Zoom lesson Task Resources	Learning Objective: <ul style="list-style-type: none"> • To generate sequences and predict how will they continue • To recognize geometric sequences and work out the term to term rule Intended Learning Outcome: By the end of the lesson students will be able to <ul style="list-style-type: none"> • To generate sequences and predict how will they continue • To recognize geometric sequences and work out the term to term rule PPT and Worksheet questions
Lessons 2 Google classroom Work will be assigned in the GC according to the students ability. Task & Resources	Learning Objective: <ul style="list-style-type: none"> • To generate sequences and predict how will they continue • To recognize geometric sequences and work out the term to term rule Intended Learning Outcome: By the end of the lesson students will be able to <ul style="list-style-type: none"> • To generate sequences and predict how will they continue • To recognize geometric sequences and work out the term to term rule Work to be assigned from the textbook through GC
Lessons 3 Zoom lesson Work to be discussed and done in the Zoom lesson Task &	Learning Objective: <ul style="list-style-type: none"> • To find the mode, median, mean and range for a set of data • To compare sets of data using averages and the range Intended Learning Outcome: By the end of the lesson students will be able to <ul style="list-style-type: none"> • To find the mode, median, mean and range for a set of data

Resources	<ul style="list-style-type: none"> • To compare sets of data using averages and the range <p>PPT, Active learn and Video</p>
Lessons 4 Zoom lesson Work to be discussed and done in the Zoom lesson Task & Resources	<p>Learning Objective:</p> <ul style="list-style-type: none"> • To understand and group the discrete and continuous data • To draw and interpret grouped frequency diagrams <p>Intended Learning Outcome: By the end of the lesson students will be able to</p> <ul style="list-style-type: none"> • To understand and group the discrete and continuous data • To draw and interpret grouped frequency diagrams <p>PPT and Active learn</p>
Lesson 5 Asynchronous Lesson Work will be assigned in the Asynchronous lesson Task & Resources	<p>Learning Objective:</p> <ul style="list-style-type: none"> • To understand and group the discrete and continuous data • To draw and interpret grouped frequency diagrams <p>Intended Learning Outcome: By the end of the lesson students will be able to</p> <ul style="list-style-type: none"> • To understand and group the discrete and continuous data • To draw and interpret grouped frequency diagrams <p>Worksheet</p>
