

SPRING BREAK SPECIAL!

Dear Educators,

As your students gear up for a well-deserved break, the Edgenuity Program, in collaboration with DEW&L and Canon Junior Academy, have prepared two exciting workshops to ensure their learning continues!

Whether they are interested in the exciting new robotic facilities, or simply enhancing their photography skills, these interactive sessions will provide valuable knowledge while keeping them entertained!

ONLINE WORKSHOP THE INCREDIBLE WORLD OF ROBOTICS!

Join Edgenuity at
www.edgenuity.com

Robots are incredible machines that can truly change our world! We invite all students ages 9-11 to discover their power at the *Edgenuity Robotics Workshop!*

Join us on March 10th at 10AM where you'll explore the various types of robots that exist, understand how they work, and even learn some basic programming skills.

You'll also meet Spot, DEW&L's innovative delivery robot and witness some of the amazing tasks it can do!

We can't wait to see you there!

Date: March 10
Time: 10:00 AM
Age: 9-11
Duration: 60 minutes
Language: English

ONLINE WORKSHOP CALLING OUT ALL ASPIRING PHOTOGRAPHERS!

With the help of Canon Junior Academy and their Edgenuity Young Storytellers workshop, your students will transform a simple hobby into a true hobby skill, all while bringing out their storytelling potential!

Join us on April 7th at 10AM where students ages 9-11 will gain new practical knowledge covering techniques such as composition, lighting, and more!

Bring and break your spirit out!

Date: April 7
Time: 10:00 AM
Age: 9-11
Duration: 60 minutes
Language: English
