

Subject	Science
Class/Division	Year 6 A-F
Week	28 (7th March- 11th March, 2021)
Work sent to students via	Google Classroom.
Total number of lessons per week	3 Zoom and 1 Google Classroom
Unit	Changing Circuits
Zoom1	<p>Learning objective: Realise the effect of the length wires in a circuit on brightness of bulbs.</p> <p>Learning Out comes: By the end of the lesson:</p> <ul style="list-style-type: none"> ➤ Students will predict the effect of length of wires on the brightness of bulbs. ➤ Realise the effect of longer wires on the brightness of bulbs. ➤ Discuss qs on Work book page 16, 17,18 and 19 if time permits.
Zoom2	<p>Learning objective: Realise the effect of the thickness of the wires in a circuit on brightness of bulbs.</p> <p>Learning Out comes: By the end of the lesson:</p> <ul style="list-style-type: none"> ➤ Students will predict the effect of thickness of wires on the brightness of bulbs. ➤ Realise the effect of thicker wires on the brightness of bulbs. ➤ Research on inventors linked to electricity. (Topic book page 19)
ZOOM 3	<p>Learning objective: Differentiate between series and parallel circuits.</p> <p>Learning Out comes: By the end of the lesson; students will</p> <ul style="list-style-type: none"> ➤ Recognise circuits as series or parallel. ➤ Know the differences between them. ➤ Draw different examples of series and parallel circuits.
Resources:	PPT shared on GC Video links posted on it.
GC	Complete Topic book page 19 and Work book tasks pages 16,17, 18 and 19.
