

YEAR 4 GEOGRAPHY – DISTANCE LEARNING 2020-2021

Subject	Geography
Class/Division	Year 4 A-F
Week	June 20 th to 24 th
Work sent to students via	Google Classroom
Total number of lessons	1 Google Classroom session
Unit	DUBAI EXPO 2021
Lesson 3 – PINK FARMS	Learning Objective: To introduce the idea that food is more sustainable when it is grown locally, and how modern farming techniques now make this possible in UAE. Learning Outcome: <ul style="list-style-type: none">• Compare traditional farms with modern vertical pink farming, to learn which is the most efficient and sustainable.• Consider the benefits of vertical pink farming to themselves, their community and the world.
Resources	How pink is your farm? – Activity video to be posted on GC
Task	 Students research individually to create a simple poster to create awareness about how pink farms would help themselves, the community and the world.
