

YEAR 9 DE - ECONOMICS

WEEK 42 (13th June to 17th June)

Zoom link for the class will be shared on the Google classroom.

Topic : Reinforcement on Price elasticity of demand

Learning Objectives

- To reinforce the concept of price elasticity of demand
- To understand how to calculate price elasticity of demand
- To draw and interpret demand curve diagrams to show different PED with numerical values.
- To understand the determinants of PED

Learning Outcomes:- Students will be able to

- Define the concept of price elasticity of demand
- Calculate price elasticity of demand
- Interpret numerical values for PED from demand curve diagrams
- Explain the determinants of PED
