**Tasks**

**Task 1: (1<sup>st</sup> and 2<sup>nd</sup> lesson task , during lesson)**

- ✓ Explain the episodic, semantic and reconstructive memory.
- ✓ Explain the strengths and weaknesses Tulving's episodic and semantic memory.

**Task 2: (Homework) (Google classroom)**

Test yourself:

- Assess Tulving's (1972) ideas about episodic and semantic memory.

**Submission date: 11<sup>th</sup> September 2021**

**Task 3 (3<sup>rd</sup> and 4<sup>th</sup> lesson task, during lesson)**

- ✓ Revise the episodic, semantic and reconstructive memory.
- ✓ Explain the strengths and weaknesses of Bartlett's reconstructive memory.

**Task 4 (homework) (Google classroom)**

- Mo and Akeem witness a man steal a bag in a restaurant. Using schema theory, suggest why Mo and Akeem may recall the scene in the restaurant differently.
- Bartlett (1932) suggested the theory of reconstructive memory to explain how information is stored and recalled. Explain two strengths and two weaknesses of Bartlett's (1932) theory of reconstructive memory.

**Submission date: 11<sup>th</sup> September 2021**

**Essential questions:**

1. Give examples of episodic and semantic memory.
2. What is the difference between episodic and semantic memory?
3. How did the participants rationalise the War of the Ghost story?
4. Explain how confabulation is done to reconstruct memory.

**Assessment Criteria:**

AO1: Describe what episodic, semantic and reconstructive memory is.
